### **C88 – Padgate Station Proposals**

The Parish Council noted that the Manchester Recovery Task Force had issued a Public Consultation Paper which was aimed at improving train performance in the Manchester area and North of England by simplifying and spacing service patterns, reducing the number of services running and separating train movement as far as possible. The Parish Council noted the implications for Padgate Station which would mean a reduction in hours running from Warrington Central via Padgate to Manchester and that the direct services from Padgate to Liverpool would cease.

Resolved that:

The Clerk write to the Department for Transport and raise the strong objections of the Parish Council on the implications for users of Padgate Station which would mean the removal of service and inconvenience, and request that, of the three options provided, Option 1 was the most suitable, which would maintain the service at Padgate Station.
